There were only four jet fighters at the Altenburg Airfield on 20 Oct 53. Considerable construction work is going on. Apparently underground bunkers are being built, as large quantities of earth are being moved. Soviet trucks take care of the in and out traffic. Two-engined planes arrive at and depart from Altenburg, mainly on Tuesdays and Thursdays. They appear to be courier planes; sacks are unloaded which are guarded by two officers. The officers then board a car and ride into the town of Altenburg.
